

About us

We are People with Disability Australia.

We are also called P.W.D.A.

We are a disability rights group.

We talk to government about things that need to change.

We speak up for **all** people with disability.

We work all over Australia.

We are here for **any one** with disability.

People with disability

- are our members
- can work for us
- help run our group.

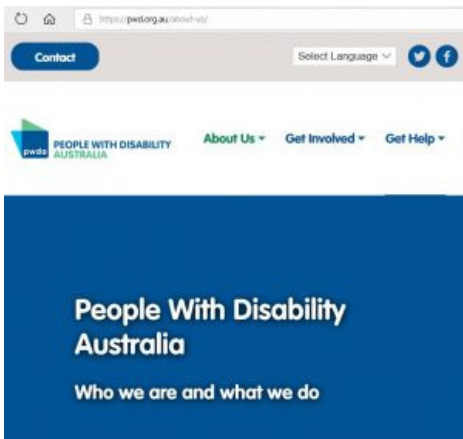

We work with other groups like us.

They are from around the world.

We do **not** make money.

We are **not** part of the government.

This is based on information in the

People with Disability website.

We have used images from

- Inspired Services
- Mayer-Johnson
- Picto - Selector
- Spectronics.
